BUSY NOVEMBER COURT

TWENTY-SIX CASES ON TRIAL LIST OF CIVIL CASES.

If Only a Portion are Tried the Two Weeks of Court Will be Fully Occupied.

The prospects are for an extended November Court, likely covering two weeks allotted to the same. The trial list of civil cases is a larger one than has been held for many terms, containing twenty-six cases, and if a half dozen of the more important of the cases are tried the entire two weeks will be consumed.

The list opens with the two cases of the Borough of Gettysburg vs. Gettysburg Transit Company, being actions of assumpsit for the recovery of the car tax of \$50 a car, which defendant alleged is unreasonable. The first case was taken to the Superior Court and a new trial was awarded by that court. Since the actions were started by the Borough the Transit Company has gone into the hands of receivers.

Robt. E. Wible and W. C. Sheely, Esqs. for plaintiff and Wm. & Wm. Arch. McCrean and D. P. McPherson, Esqs. for defendant.

The third case is that of the Nelson Construction Co. vs. the County of Adams and is an action of assumpsit for \$600 extras in erecting a bridge over Swift Run on the York and Gettysburg turnpike several years ago. The county defends that there is no liability for the extras. W. C. Sheely, Esq. for plaintiff, S. S. Neely, Esq. for defendant.

First National Bank of Gettysburg vs. Noah R. Beamer is an action of assumpsit on a note of about \$800 and N. R. Beamer, defendant, says his name to note is not his genuine signature. J. L. Butt, Esq. for plaintiff and W. C. Sheely, Esq. for defendant.

First National Bank of Gettysburg vs. Admrs. of C. H. Beamer, deceased, George Heller, is an action of assumpsit on a note of \$670 and defendant, George Heller, says his name to note is a forgery. J. L. Butt, Esq. for plaintiff and Wm. Hersch, Esq. for defendant.

The two cases above will likely involve expert testimony on handwriting and be fought to a finish.

S. Elizabeth Thomas vs. Henry A. Deardorff is an action of assumpsit for damages for breach of promise of marriage. The two parties live in Mountpleasant township and plaintiff claims alleged damages of \$1600. W. C. Sheely, Esq. for plaintiff and Wm. Hersch, Esq. for defendant.

Harry J. Reifsnnyder vs. Harry Brubaker is action of assumpsit for \$22 wages, and defendant claims set off in excess. J. D. Keith, Esq. for plaintiff and R. E. Wible, Esq. for defendant.

Rebecca E. Hartman and Mrs. M. E. Hartman, claimants, vs. Citizens' Trust Co. of Gettysburg, and Bertha K. Cashman, D. P. McPherson Esq. for plaintiff, W. C. Sheely and John D. Keith, Esqs. for defendants.

The foregoing eight cases are the old ones on the list. The eighteen new cases on the list are the following:

Lovina M. Kepner, claimant, vs. C. J. Spalding, Agt. This is a sheriff's interpleader case. Property of B. F. Kepner levied upon by sheriff being claimed by his wife, the plaintiff. J. L. Williams, Esq. for plaintiff, W. C. Sheely, Esq. for defendant.

Beverly W. Mister, Chas. W. Heinsler and John Phelps, Receivers of Farmers' Trust, Banking and Deposit Co. of Baltimore, Md., vs. A. B. Mumert, is an action of assumpsit on a note of about \$500 for some oil stock. The defendant alleges he paid note, but plaintiffs say payment was not made to them, holders of note. W. C. Sheely, Esq. for plaintiff, Wm. Hersch, Esq. for defendant.

Wm. H. Grogg vs. F. K. Hafer is an action of assumpsit on a note of \$1000. W. C. Sheely, Esq. for plaintiff, J. L. Butt, Esq. for defendant.

I. S. Miller vs. F. K. Hafer is an action of assumpsit on a note of \$200. W. C. Sheely, Esq. for plaintiff, J. L. Butt, Esq. for defendant.

Cambria Coal Co. now for use of Iron City Coal and Coke Co. vs. Calvin Gilbert is an action of assumpsit for coal of \$30. W. C. Sheely, Esq. for plaintiff, D. P. McPherson, Esq. for defendant.

First National Bank of Gettysburg vs. G. Milton Blair and J. Emory Blair is an action of assumpsit on two notes of G. Milton Blair, one note for \$400 and other note for \$500, the latter with interest amounting to \$17.22.

John E. N. vs. John E. N. is a case of assumpsit for \$100. J. L. Butt, Esq. for plaintiff, W. C. Sheely, Esq. for defendant.

Sallie E. Schmitz vs. O. C. Baker is an action of assumpsit. The plaintiff bought a piano of defendant, a piano dealer of Harrisburg. The plaintiff alleges the piano was not what was guaranteed to be and after payment of instrument sought suit on the guarantee. Wm. Hersch, Esq. for plaintiff, W. C. Sheely, Esq. for defendant.

Rockdale Powder Co. incorporated vs. Lewis Mizell is an action of assumpsit on two notes for powder and explosives. The defendant alleges that the notes given were only to be paid as the engineers in charge of the construction work approved and that pay-

ment of the last two notes—those sued upon—were withheld pending the approval of the engineers. J. L. Butt, Esq. for plaintiff, J. L. Williams, Esq. for defendant.

Mary R. Delap vs. J. H. Brubaker is an action of replevin for a battlefield wagon. Wm. Hersch and J. D. Keith, Esqs. for plaintiff, W. C. Sheely, Esq. for defendant.

South Mountain Oil and Developing Co. a corporation incorporated under the laws of Delaware vs. G. C. Oriant is an action of assumpsit, the plaintiff suing for damages because the oil well contracted for was not drilled to a depth of 2000 feet. The defendant alleges it was impossible to drill well and puts in a set off for his labor and expenses. Wm. Hersch, Esq. for plaintiff, Wm. & Wm. Arch. McCrean and W. C. Sheely, Esqs. for defendant.

A. D. Bowers vs. Chas. H. Duttrera is an action of assumpsit. Wm. McSherry, Esq. for plaintiff, and Geo. M. Walter, Esq. for defendant.

Criminal Calendar.

The criminal court does not promise to be a very extended one. The new cases are few in number and charges are not serious, and unless some of the continued cases are tried the criminal calendar will be rapidly disposed of. The new cases are the following:

VETERAN MUSTERED OUT

WILLIAM G. BLACK, A CUMBERLAND TWP. CITIZEN.

A School Teacher for 17 Years and a Member of Post 9, G. A. R., Since Its Organization.

Wm. G. Black, a well known and highly respected citizen of Cumberland township, and an old soldier, was mustered out of life last Monday evening, Oct. 19, at 20 minutes after 10 o'clock, from dropsy, aged 76 years, 1 month and 10 days. Mr. Black had been ill with this disease for several years and during the last nine months was compelled to sit in a chair all of the time. He was unable to lie down and was a very great sufferer. He was born in Mountjoy township but when a few years old the family moved into Cumberland township and Mr. Black resided there the remainder of his life. For 52 years he resided in the house in which he died. In the earlier part of his life he taught school. He was engaged in this occupation for 17 years, and one of the best teachers in the county teaching school at a time when four months constituted the term and when teachers were paid twelve and fourteen dollars a month salary. After he gave up this occupation he became a farmer and worked on his farm until twelve years ago when he suffered a stroke of apoplexy. After that until a few years ago he was able to do light work but as not a long time ago he suffered with dropsy during the last few years, since then he was unable to do any work. He served as a soldier for several terms, also tax collector and supervisor and filled these positions with ability and faithfulness. He was a member of Mt. Joy Lutheran Church, being leader in the choir for 25 years and well and favorably known in many parts of the county.

A remarkable faculty of Mr. Black was the possession of a memory said to be one of the best in the county. He was possessed of a large store of accurate knowledge extending for many years and was seldom if ever found to have forgotten any event of any consequence.

He was twice married. His first wife, who was Miss Eliza Ann Caskey, daughter of Isaiah Caskey. Two children survive by this marriage, Mrs. D. M. Shoemaker and William H. Black, both of near Sykesville, Md. His second wife was Miss Sarah Whitehead of Cumberland township. She survives together with four sons, Charles W. and Irvin B., both of Mountjoy township, John W. of Cumberland township, Geo. P. of Gettysburg.

He was a veteran of the Civil War, having been enlisted, first as a private in Co. B, 21st Pa. Vol. Cal., and later in the service June 16, 1863, and was honorably discharged Feb. 29, 1864, after a service of 8 months and 4 days. On March 7, 1865, he enlisted for one year or during the war, and became a corporal in the 101st Pa. Inf. and was honorably discharged June 25, 1865, after a service of 3 months and 13 days. He was a member of Company 3, 101st Pa. Inf., G. A. R. since its organization.

The funeral was held on Thursday morning, meeting at the house at half past nine o'clock. Services were held at Mt. Joy Church and interment in the cemetery adjoining. Rev. P. T. E. Stockslager conducted the services, assisted by Rev. J. A. Clutz of Gettysburg. The pall bearers were David Marling, Jacob E. Sharotts, Jonas Marling, James H. Reaver, Theo. McAllister and William H. Loti.

CHARLES C. ROWE of Emmitsburg, well known to many of our people, died on Sunday, Oct. 25, from some indigestion aged 54 years. The funeral service was held at the home of his father on last Wednesday. Rev. Charles Reinwald, pastor of the Lutheran Church officiating. The interment was made in Mountain View cemetery. Mr. Rowe was a life-long resident of Emmitsburg, a member of the Lutheran church and a respected and valued citizen of that place. For years he has been in charge of the large power and heating plant at St. Joseph's Academy and before that was engaged in the plumbing business with his father. He and his wife laid the mains and did much of the work in connection with the sewer and water system and much of the daily sanitary plumbing done in place was supervised by him. He is survived by two sons, one of two daughters and his wife.

MAUD WILLIS CONCERT CO.

Teachers' Institute, Monday Eve'ng

The Times, Reading, Pa., Audience Delighted. "Miss Maude Willis, reader and impersonator, entertained a select audience at the third of the series of entertainments in the Members' Course at the Y. M. C. A. last evening. Miss Willis is the possessor of unusual ability. She has a splendid voice and stage presence with a magnetism that holds her audience throughout. In humorous recitations her versatility is proven to be great, while in tragic selections and in the interpretation of these tender themes which require the highest type of ability to properly present she is exceptionally capable. The concert was very enthusiastic."

"Omaha Record"—Miss Willis entertained a select audience of rare sweetness and beauty. Her recitation of the Yesterdays, in which she was assisted by Ralph Walker, gave great delight to the audience.

"San Francisco Call"—Mr. Ralph Walker's solo was the most enjoyable feature of the evening. His rich, powerful voice and artistic interpretation so pleased the audience that he was called back to the stage several times, each encore adding to his popularity.

"Miss Townsend played splendidly the Sara-ite-Fantasia."

ORANGE AND BLUE VICTORY

IN THE BIG GAME WITH DICKINSON LAST SATURDAY.

Gettysburg Goes Football Mad for a Day—Great Score—

23 to 5.

Gettysburg exhibited a new characteristic on last Saturday. The town really and truly got enthusiastic, wild, football mad over the game with the Dickinson College team of Carlisle and it was a most becoming attitude.

The crowd at the game must have numbered between one and two thousand. Carlisle furnished over three hundred of those present. There was a special train from Hanover in the afternoon bringing people from York, Spring Grove, Hanover and New Oxford.

The Carlisle crowd arrived in the morning. There were two high schools from Dickinson and they seemed to take the town by storm and were welcomed to everything but the score. They had a drum corps and a band with them and with red and white flying paraded the town. The Orange and Blue arose equal to the situation. With the Citizens' Band of Gettysburg at the head they paraded the town after dinner with pennants flying, and presented a fine appearance as they moved to Nixon Field.

That field never before presented such a beautifully picturesque scene. On the south side were massed the Orange and Blue and on the north side the Red and White. The new bleachers on both sides were crowded with ladies and in their bright colored gowns in the sunshine of the afternoon with the pennants waving they presented a most charming picture. On either side the Loys of Dickinson and Gettysburg were lined up and under leadership they "rooted" as they never "rooted" before, with the exception that the fast, good all around playing of the Orange and Blue gave the Red and White little chance to "root" but they took advantage of every small gain to be the "rooting".

The game was called at 2:30, and in a very short time Gettysburg made it plain that the visitors were outplayed, and unplayed, that their interiors were better and that the game was theirs. The lively game fifty-five minutes and the first half ended with a score of 12 to 0 in favor of Gettysburg. Two touchdowns and goal kicked in both instances. The first touchdown was a fine touch down against the line on the 10 and the second was made by a wonderful run by them. Over both achievements the Orange and Blue went wild, cheering, shouting, and cheering, and waving of pennants by the ladies on the bleachers.

The second half had only been going a few minutes when the Red and White carried the ball on a long run and made a touchdown and the Red and White "rooters" got the only chance of the game to "root" and they went at it valiantly. A touchdown by Gettysburg almost immediately followed with goal kicked and the Orange and Blue drowned all previous rejoicing of their opponents. Another touchdown by the home team made the great score of 23 to 5 and brought the game to an end.

HONOLULU STUDENTS.

Teachers' Institute, Thursday Eve'ng

The entertainment course given under the auspices of the Home Culture Club opened last evening with the Honolulu Students. To say that they greatly pleased the audience is but stating the fact mildly. They are born entertainers and sang with a vim and snap that carried the audience with them from the start. Too much cannot be said in praise of the Sextette from the Hawaiian Islands. Every number was encored. The entertainers proved themselves to be finished singers and instrumentalists. The illustrated views of the Islands, alone were worth the price of admission. The Daily Herald, Northampton, Mass., Oct. 25.

Mr. Frank Bean, Dear Sir: I have been so many times annoyed by your work with the store phonograph that I had to come to the conclusion that such a work was a great nuisance. You have changed my mind. I now know that such a work is a great pleasure and I am glad to see that you are so successful in your work.

DR. BYRON W. KING.

Teachers' Institute, Tuesday, Ev'ng

His lecture was out of the ordinary in fact could hardly be termed a lecture. In the 60's a lecture of the word but rather a lecture in entertainment. His work enticed and pleased old and young alike and he was repeatedly applauded. He is a splendid ventriloquist and his stirring of the humorists, playing on the sawing wood and the sleigh bells in the distance, were real as life itself.

One infant he has tears in your eyes and the next he is laughing with merriment.

His work as a whole is simply fine and Hazelton will be glad to greet him with a much larger hearing at any time he may come back.

On Saturday he spoke both in the morning and afternoon at the Teachers' Institute at the High School building and his talks were greatly commended by the teachers and others present. White River News—Hazelton, Ind., October 25, 1905.

CHILDREN under 12 years of age will not be admitted to the day sessions of the Teachers' Institute unless accompanied by parents or guardians.

There was a rending and tearing above, and just as the last man leaped into safety, the derrick crashed down, bearing with it the scaffold and part of the stone. One empty, breathless moment, then a roar from far below, and a cloud of gray dust came slowly drifting upward to the group of tiny men still clinging to the girders. WHAT UNCLE SAM SPENDS FOR EDUCATION

It is a Goodly Sum but Schools Have Not Kept Pace with National Progress.

We spend a great deal of money on our public schools, says Rheta Childs Dorr, in the November "Deliberator." The budget in 1905 was \$288,000,000, and this increased the next year to \$307,765,650. For a country as proud and as prosperous as ours this is not too much money. But, if it is not educating anybody, it is a great deal too much. Apparently, it is not being made right use of, or it would be educating our children, all of them, except the small minority whose capacity for learning is under the normal. The money does not reach the child for whom it was intended. Where does it go? The tax-paying public has a perfect right to ask and to be informed.

Parents who, often at the cost of extreme self-sacrifice, keep their children in school after the legal working age have a right to demand of the school authorities why, with extravagantly equipped high schools in almost every town, they find it necessary to send their children to business colleges to learn, not only stenography and typewriting, but commercial arithmetic, bookkeeping, letter-writing and business forms. The United States Commissioner of Education, in 1905, had reports from 529 private commercial schools whose total enrollment was 146,086. Fewer institutions reported in 1906, but that must not be taken as an evidence of their decline. The commissioner writes: "It is well known that there are hundreds of small business which do not report to this bureau." Most of these schools, practically all of them, would have to close their doors to-morrow if they lost the patronage of the public school child.

Whenever a word of criticism is directed against the public school, the indignant answer always comes back: "The schools are much better than they ever were before." Our schools are better than they were forty years ago, or twenty years ago; in some respects they are better than they were ten years ago. The charge that can with sincerity be made is that the schools have not advanced with other departments of national progress. The schools—instead of keeping pace with the great changes that have affected the social order: with the altered conditions of home life, and, above all, with the greatly extended demands of life upon the children on leaving school—have lagged far behind. They have seemed content to exist apart from the world as a sort of hermit kingdom, absorbed in their own affairs, ignoring the rest of the universe.

Our inland cities should be seaports. We are spending hundreds of millions of dollars upon Panama, partly as a military measure, partly to enable our few ships to save two transfers and a few miles of rail-haul in carrying between the east and west coasts, partly in a spirit of idealism—desiring to give a great free roadway to the world. If we spent an equal sum or even less upon our inland waters, under a systematic plan of conservation, we would make virtual seaports of Sioux City, Omaha, Pittsburg, Minneapolis, St. Louis and Chicago: would save all the transfers and overland rail-haul which now burden the grain of the Northwest and the iron of Pittsburg; would make it possible for gunboats of considerable size to hasten to points nearly everywhere in the interior of the country, and to defend with equal force the shores of the Great Lakes and those of the Gulf; and in the end we would have, not from tolls, but from the by-products of our industry, a net return of more than the original capital every year to nation, State, and individual. All this, from the proper consideration of a floating squash.

The Mississippi is not merely a lot of water flowing by the grace of Providence in a shifting bed. It is a quantity of water precipitated by natural conditions upon one million, two hundred and forty-four thousand square miles of land, of which a certain fairly fixed percentage must find its way to the Gulf of Mexico by the river channel. We know from long and careful observations at what time that water will fall—a vast amount in spring and very little in autumn and winter. Our task is so to conduct it to and through the Mississippi that there shall be at all times a fairly standard amount in the river: that it shall do, in passing to the sea, all the good it is capable of to agriculture, forestry, commerce, and in the development of power; and that it shall be prevented from doing any damage by soil-wash, by flood, or by any other means.—John L. Matthews, in November "Success Magazine."

PERILS OF THE AIR

The Workers On High Buildings Daily Brave Breathless Risks.

As you watch them at work on the girders, clinging to massive steel corners, perched on the tops of columns, or leaning out over the street far below, it is not the recklessness, but the cool, steady nerve you notice most. Under all the apparent unconcern you can feel the endless strain. It shows in the looks of their eyes, in the lines of their faces, in the quick, sudden motions, in the slow, cat-like movements. Endlessly facing death, they are quiet and cool by long training.

Up to the "Metropolitan Life," some twenty-five tiers above the street, an enormous circle of stone was being built in as a frame for a clock. A dozen men were at work on the scaffold that hung outside, and projecting from overhead was the boom of the derrick that hoisted the massive stone. Suddenly the cable caught, and the full power from the engine below was brought to bear on the derrick. All this in an instant, but in that instant somebody saw what was going to happen. With a quick, warning cry he

The Rain Was Hot.

Mrs. Gott had been waiting for a week or more to give her rear porch a good scrubbing, but she was always afraid of incurring the keen displeasure of the people in the flat below, who, it seemed, were never off their porch and who would get all the drippings of her scrubbing operation.

When it rained, though, Mrs. Gott saw what she thought was her opportunity. The people down below surely would not be out on the porch during the rainstorm, and all the water that dripped down would be attributed to the rain. She filled a bucket with boiling hot water, threw in a sallow cake of soap and got busy.

But she had reckoned wrong, for the people down below were on their porch enjoying the shower. In a minute Mrs. Gott heard a woman's voice below saying: "Why, Martha, the rain's coming through from the porch above. The roof must leak."

And then Martha observed, with a gasp: "Yes. And, oh, heavens, had you noticed that the rain is hot? Did you ever hear of such a thing? Aren't terrible things happening? All these awful murders, and now hot rain! But it's the Lord's doings, and we must submit."—Cleveland Plain Dealer

Early Lamps and Wicks.

It would be hazardous to conjecture what the first wick consisted of, but when we come to consider the iron lamp, or "crusie," we know that the wick commonly used was the pith of the rush, which was gathered and partially stripped of its outer green covering, cut into proper lengths, dried and tied up into bundles ready for use. The iron lamp was hammered out of one piece of iron in a stone mold. This was usually done by the blacksmith, and the molds are still to be seen in museums, in the hands of private collectors and no doubt at some of the country blacksmiths' shops. They are of one uniform shape, with some slight varieties. The lamp consists of two cups, one suspended above and inside the other. The suspender is so fixed and notched as to enable the upper cup, which holds the oil and wick, to be shifted to keep the oil constantly in contact with the wick. The lower cup catches the drip of the oil, which can be easily replaced in the upper cup by lifting it off until the oil is poured into it. The upper cup has sometimes a movable lid.—Chambers' Journal.

Carnegie's First Investment.

It was due to Thomas A. Scott that Andrew Carnegie made his first investment, ten shares of stock in the Adams Express company, valued at \$500. This he did with considerable trepidation. He had labored hard for the money he had saved up while he had worked as a telegrapher. It is part of railroad history how he later fell in with the inventor of the sleeping car, saw the enormous advantages which that manner of travel held out to passengers and promoters and how he interested others in the invention of Mr. Woodruff. This occurred shortly after his return from Washington, when the problems of transportation were still uppermost in his mind. He was now on the road to success and wealth as he then pictured earthly possessions. The Pennsylvania oil fields yielded large returns when Carnegie and others turned their energies in the direction of the newly discovered territory. In one year land purchased for \$50,000 increased in value so that it paid a dividend of \$1,000,000.—Exchange.

Reading a Horse's Face.

Every horse carries an index to his temper and intelligence in his face. The teachable, tractable animal is broad and flat between the eyes; the bony ridge of his face dishes slightly from the point where the face narrows toward the nostrils. His ears are well set, sensitive and far apart, with a well defined ridge of bone extending across the top of the head between them. Always feel for this ridge in judging a horse. The eye should be large, clear and bright, with a prominent ridge of bone along the inner and upper edge of the socket.—London Answers.

Where Swallows Go.

The swallows all spend the winter in Central America and the south part of Mexico. They appear in the southern states as early as the middle of February, but seldom get as far north as New England until the month of May. The robins winter in the southern states and in northern Mexico. They are to be seen in flocks the winter through in the gulf states.—Exchange.

Plausible.

"The trouble with this tooth," said the dentist, pressing it with a slender instrument, "is that the nerve is dying."

"It seems to me, doctor," answered the victim, "you ought to treat the dying with a little more respect."

An Unhappy Answer.

The Curate (loudly) greeted: "Whatever makes you keep such a spiteful old cat as that?" (Giles Wink, you see, it's like this: "I've felt a bit lonely since my old woman died." London Opinion)

At the End of the Voyage.

Jonah disembarked. "The only trip I don't have to tip the steward," he exclaimed. Therewith he regarded the whale half approvingly.—New York Sun.

Different Points of View.

"It's hard to be poor," sighed the seedy pessimist. "That's queer," replied the ragged optimist. "I always found it easy enough."

Successful guilt is the bane of society.—Syrrus.

COMFORTING WORDS.

Many a Gettysburg Household Will Find Them So.

To have the pains and aches of a bad back removed: to be entirely free from annoying, dangerous urinary disorders is enough to make any kidney sufferer grateful. To tell how this great change can be brought about will prove comforting words to hundreds of Gettysburg readers.

Mrs. Vina E. Weirick, living at 43 Breckenridge St., Gettysburg, Pa., says: "I was in poor health for years as a result of weak and diseased kidneys. I was nervous, suffered from severe headaches, my back ached constantly, and there were sharp pains through my sides and loins. I was often very dizzy and at times spots would float before my eyes. I had but little ambition, and the least work would exhaust me. Doan's Kidney Pills were finally recommended to me and I procured a box at the People's Drug Store, began to use them according to directions and received a great amount of good. I am much better now than before in years and feel that I owe all to Doan's Kidney Pills."

Illegal Practice Alleged.

The Baltimore American of Oct. 30, contains the following :

Dr. Henry Swartz, who claims to be a cancer specialist, and who gave his address as New Oxford, Pa., was arraigned before Justice Loden at the Western Police Station on the charge of practicing medicine in this city illegally. He was arrested by plain clothes Officer Charles A. Kahler, at the instigation of Dr. Herbert Harlan, president of the State Board of Medical Examiners. When arraigned Dr. Swartz prayed a jury trial and was released on \$500 bail. At the preliminary examination Dr. Harlan stated that he learned that Dr. Swartz made periodical visits to this city to attend patients suffering from cancer. Under an assumed name, Dr. Harlan said he wrote Dr. Swartz a letter to his office, at New Oxford, Pa., a few weeks ago asking for treatment for a cancer. At the hearing he displayed two letters which he said he had received from Dr. Swartz, in which it was stated that the latter would be in Baltimore yesterday. The letter directed Dr. Harlan, or "Mr. George Myers," as he signed himself, to call upon Dr. Swartz at the Westminster Hotel, 418 West Fayette Street.

After having made the engagement Dr. Harlan sought the aid of the police and Patrolman Kahler was put on the case. He stated that he went to the hotel at about noon and was ushered to a room occupied by Dr. Swartz as an office. It was the original intention of the policemen to let Dr. Swartz examine a little pimple on his face, but after seeing several patients go through the operations and all with the same instruments, which he said were not sterilized, he said he lost his nerve.

Alarm of Fire.

There was an alarm of fire about the time the football game was about to start on last Saturday, and those who were not at the game went to the fire. It was found to be in a cellar room in South College on the campus on Washington street and was soon gotten under control by the good work of the firemen. It is supposed that the wind blew sparks from an outside fire into cellar and a blaze was started. The room was used in which to store boxes and furniture and the contents of room were well scorched as also the joist and floor overhead. Prompt alarm and work saved a dangerous situation in the handsome building.

Chrysanthemum Show.

The Cashtown ladies on last Saturday held a Chrysanthemum Show and Sale in the Reformed Church which was more beautiful and brilliant with Mums than any previous exhibition. There were many visitors present who raved over the show, which in flowers and visitors was a success beyond expectations. The display to an appreciative and liberal assemblage was greater than ever before. Chrysanthemum town well maintained its flower fame.

You can cure dyspepsia, indigestion, sour or weak stomach, or in fact any form of stomach trouble if you will take Kodol occasionally—just at the times when you need it. Kodol does not have to be taken all the time. Ordinarily you only take Kodol now and then, because it completely digests all the food you eat, and after a few days or a week or so, the stomach can digest the food without the aid of Kodol. Then you don't need Kodol any longer. Try it today on our guarantee. We know what it will do for you. Sold by Peoples Drug Store.

The W. C. T. U. will meet with Mrs. J. M. Thompson, Confederate Ave., Saturday at 2:30 p. m.

KENNEDY'S Laxative Cough Syrup not only heals irritation and allays inflammation, thereby stopping the cough, but it moves the bowels gently and in that way drives the cold from the system. Falling Hair

Ayer's Hair Vigor promptly destroys the germs that cause falling hair. It nourishes the hair-follicles, restores them to health. The hair stops falling out, grows more rapidly.

Does not Color the Hair

We wish you to positively and distinctly understand that Ayer's Hair Vigor does not affect the color of the hair, even to the slightest degree. Persons with the whitest or the lightest and most delicate blond hair may use it freely without having the hair made a shade darker.

Ingredients: Sulphur, Glycerin, Quinin, Sodium Chloride, Capsicum, Sage, Alcohol, Water, Perfume.

Show this formula to your doctor. Ask him what he thinks of it.

J. C. AYER & COMPANY, Lowell, Mass.

Dandruff

Ayer's Hair Vigor just as promptly destroys the germs that cause dandruff. It removes every trace of dandruff itself, and keeps the scalp clean and in a healthy condition.

AN Excursion into the Unknown, the Record of Actual Personal Experiments by the Author of "The Tyranny of the Dark," "The Captain of the Gray-Horse Troop," etc. Here is a new hypothesis in explanation of the bewildering "spirit" forces, and Mr. Garland advances proof that this hypothesis may have nothing to do with the communication of the living with the dead. He sets forth, not talk, but the actual records. It is an amazing, convincing and wonderfully entertaining tale—an entrancing story.
